

Making the case for the Original AS/R REBUILT™ CAROUSEL

The Low Cost G2P Solution since 1991

At AS/R we're solutions-driven. AS/R converts even heavily-used equipment to a “like new” quality. **Rebuilt Carousels™** offer superior ROI with competitive pricing on high-quality, high-density G2P assets that are relocated and reconfigured to operate “like-new” within your facility.

Machine parts are run through AS/R's proprietary “rebuilt” process:

1. An extensive, industrial machine wash (a “car wash for carousels”) removes the grease and grit from every part
2. Subcomponents undergo specialized workbench inspections
3. Any parts showing >20% wear are repaired or replaced with spare parts from AS/R's readily available inventory

The “Rebuilt” procedure, combined with proper reconfiguration by AS/R experts, results in a “like new” AS/R Rebuilt™ product.

And, only AS/R ...

- Offers **Guaranteed Uptime™** contracts
- Offers a “like new” warranty, equal to any new OEM in the carousel space
- Will extend that warranty for each year a client renews their tech service and preventative maintenance program (free in year one)
- Has the inventory and specialized equipment knowledge that comes from years of removing, rebuilding and re-installing carousels
- Can configure any carousel configuration a client needs — from our existing stock!

THE AS/R REBUILT DIFFERENCE:

- ✓ OEM-like product shipped from stock
- ✓ Recognized by the market as “equivalent to new”
- ✓ Expertly designed for any configuration
- ✓ Like-New Warranty (can be extended)
- ✓ Ongoing support with extensive parts inventory and national field service operations

A MASSIVE PARTS INVENTORY

Fast access to essential parts can become mission critical when a machine breaks down. Because we move many systems (1,000s over the past 30+ years), we have built up a massive spare parts cache for all makes and models, as well as all generations of drives, controls and equipment configurations. This immediate access to a large inventory of spare parts is a major strength of AS/R and a valuable benefit to our customer partners!

About AS/R - AS/R has been providing customized carousel control software (Magic Warehouse™) since 1994. AS/R invests heavily into method-specific, software engineering *resulting in NO failures*. In fact, AS/R has been recognized as one of the top 10 solution providers in the industry. In addition to small parts picking, our Magic Warehouse™ software offers warehouse space solutions for the greater world of total warehouse management — covering all sizes and product categories. No other rebuilt equipment vendor offers this scope of carousel solutions.
